

ILKKA TAPONEN

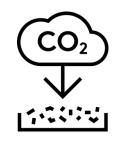

BUSINESS DEVELOPMENT LEAD ILKKA@CARBOCULTURE.COM

Hiilensidontaa ja energiantuotantoa

MAIN PRODUCT

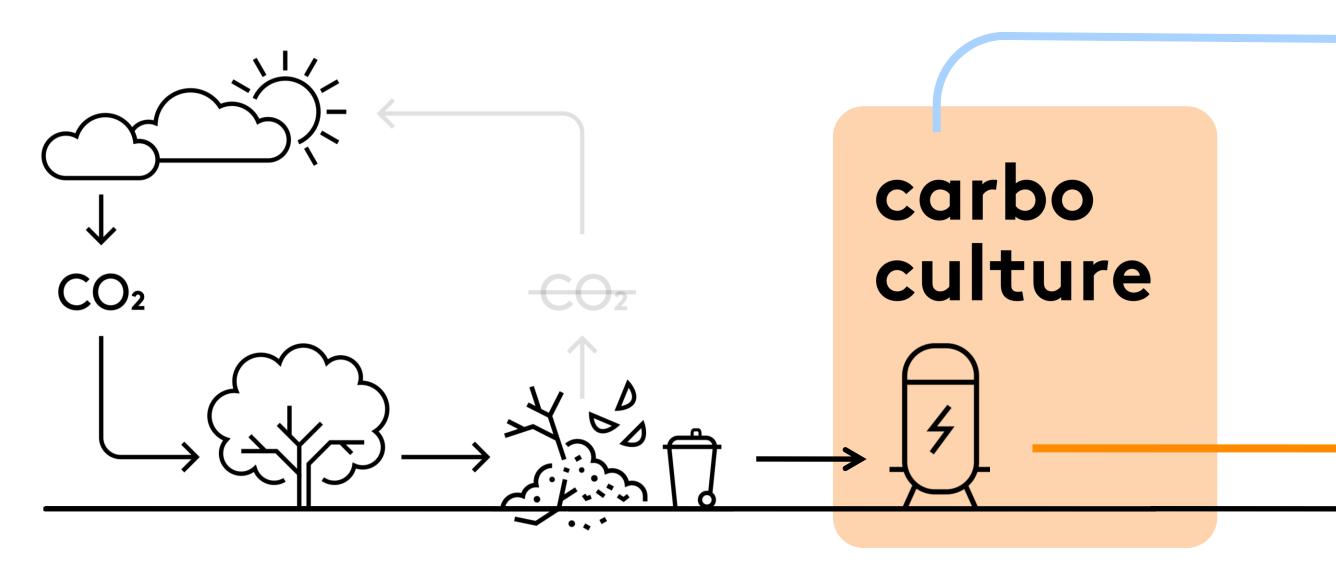

Carbon Removal credits

Permanent, verified CO2 removal credits

Trees, crops and biomass capture CO2 by using 100% sunlight energy

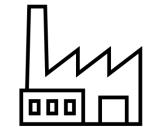

Wood chips, nutshells and other waste biomass contains CO2

We convert the biomass into a stable form of carbon for 1000 years.

Renewable Heat

Our excess renewable heat can be sold for district heating or industrial processes

Biochar

The biochar is used and stored in soil!
